

Injection moulded plastic caps & closures

About plastic caps & closures:

The plastic caps and closures is an essential part of the packaging industry. Injection molded plastic caps and closures are used for closing and sealing plastic packaging materials such as PET bottles, trays etc.

About the opportunity:

The global caps and closure market is to grow from USD 42.7 Bln (INR 28.8 thousands crores) to USD 56.6 bln ((NR 38.2 thousands crores) at a CAGR of 4% by 2018. ¹. India is the fifth largest market for plastic industry after US, UK, Germany and China. The key demand sectors are pharmaceuticals, personal care and packaging.

Such a unit can be started within a budget of Rs. 1 crore. Continuous availability of power is critical to viability of unit.

Report coverage:

1. The manufacturing process
2. Information on machinery/Raw material suppliers
3. Key costs, Per-unit profitability, fixed and working capital cost
4. Break even volumes
5. Incentives from government/other schemes
6. Connecting you to technical consultants who can offer implementation support
