

Dairy farm

About Dairy farm:

Dairy farm is a farm where cows/buffalos are raised for the purpose of milk production. The milk can be sold as such to milk cooperatives or converted into value added products such as butter/Ghee/curd etc.

About the opportunity:

Milk consumption in India has been growing at about 6.8% ⁱannually for the past decade. The growth is driven by rising population, increasing disposable incomes, higher demand for value added products. Milk based value added products include flavored milk, milk powder, butter, ghee, paneer and milk based sweets

Report coverage:

1. Setting up dairy farm- infrastructure (animal shed, water), land required
