

Fish & marine product exports

About Fish export:

Indian seafood industry is a major supplier in the global seafood trade in exporting wide range of products.

About the opportunity:

Seafood export in India is somewhat over 50 years old and has come a long way. India ships seafood products to more than 100 countries. India is second major producer of aquaculture in the world producing 7 per cent¹ of the world output. During the year 2014 –15, exports of marine products reached an all time high of USD 5511.12 million with rupees equivalent of 36.81 thousand crores². Indian Government through MPEDA has provided various subsidies in the form of financial assistance for 'setting cold stores', purchase refrigerated trucks', 'seafood units up gradation', 'purchase antibiotic testing kit', 'insurance coverage for worker' etc. This report will be useful to anyone who is contemplating to set up export agency and is interested in getting real time information of set up cost, legal requirements, and break even time.

Report coverage:

1. Processed fish- Export market, key destination, key products, trade terms
2. Canning and processing fish- steps, machinery needed
3. Cost of machines, quotes from machinery suppliers near your location
4. Legal & regulatory requirements (including regulatory fee and contact details of consultancy), certifications required for exports
5. Schemes (Central and State governments)
6. Break-even analysis
7. Profitability (Profit per unit)
8. Cost/capital needed (CAPEX)
