

PVC Foam Boards

About PVC sheets:

PVC foam sheets or WPC (Wooden Plastic Composite) sheets find application in construction and furniture industry. These foam boards can replace wood in application such as doors (for inside the house), kitchen furniture (shelves), wash area (shelves). Another application of these sheets is in outdoor advertising (signage boards).

Consumption on PVC in India is about 2.3 Million metric tonne per annum and PVC sheets account for 23 lakh metric tonne, 1 per cent of PVC consumption.

Key Players in PVC Sheet Market:

There are a number of small and medium enterprises, some of them are discussed below.
